

St Francis Xavier Catholic School, Whangarei

Shade Sails.

Sun Protection

Choose Shade Sails by Shade Systems when you need stylish, affordable and long-lasting protection from the sun's harmful rays. We use tensioned fabric mesh, custom-designed to your specifications. So our sail designs feature twisted, overlapped and angled options to create a virtually limitless array of soaring forms. Whatever format you need for your sunshade structure, we can provide the shade sail solution for playgrounds that suit your every need.

Hypar Shades are perfect for...

- ✓ Poolside & Skate Parks
- ✓ Playgrounds & Schools
- ✓ Picnic Areas & Community Spaces

Holy Cross School, Auckland

10 year Warranty

These structures are covered with our unique 10 year warranty.

Shade Fabric

The shade sail is manufactured from heavy duty materials. Each sail is individually created, custom-made and fitted to each site situation. Shade fabric provides **up to 95% UVR block**, it also allows plenty of light and airflow. The heavy duty HDPE mesh fabric is available in many colours. Robust webbing or wire is sewn into all hems for ultimate strength and all hems are sewn with PTFE thread for increased durability.

Framework

The corner tensioning system is fully adjustable and all hardware is marine grade stainless steel. All structural bolts are galvanized.

Turn-Key Project Management

From concept drawings through to on-going maintenance, Shade Systems is a 100% turn-key solution. Let us take care of the design, council consents, manufacture, installation, and more with our dedicated and experienced team.
